

# How to acknowledge INCD

INCD is required to provide evidence of the work made possible through the usage of the infrastructure services. The metric of success is the scientific publications produced through the usage of the INCD services.

Please help us to continue delivering services to the academic and research community, by acknowledging the usage of INCD in your scientific publications.

This will help us in our efforts to provide better services to our users. For that, we suggest the use of the following acknowledgement text in the publications:

**“ This work was produced with the support of INCD funded by FCT and FEDER under the project 01/SAICT/2016 nº 022153**

Acknowledging the use of INCD in conference proceedings, talks, posters, web sites, videos, etc is also welcomed. You can also acknowledge the use of INCD in multimedia content and web sites by using the [INCD logo](#), please get in touch with the [INCD support helpdesk](#) to make sure the usage of the INCD logo matches the INCD policies.

INCD needs to collect and report the publications, posters, talks etc that resulted from its usage. Please report periodically those outputs to the [INCD support helpdesk](#) and also provide us your feedback.
