How to connect to the HPC and HTC clusters

public login services

- Access to the INCD clusters is only available to registered users.
- To use the HPC services users need to login via SSH into a front-end server.
- The login servers can be customized according to the user requirements (OS, Hardware resources, etc).
- The login machines can be composed by a single server or multiple servers depending on the number of users.

INCD-Lisbon (Cirrus-A) HPC and HTC

- Access to the INCD advanced computing facilities in Lisbon is performed via the following login servers.

Almalinux 8 Login server

`cirrus.a.acnca.pt`
